Where permitted in the country of origin, revolving bank accounts and blocked accounts held in the student's name are the preferred forms.

ACCOMMODATION

Suitable accommodation within Italian national territory must be proven. A mere application for, or eligibility to obtain, accommodation in a university residence does NOT constitute valid documentation for this purpose.

HEALTH INSURANCE

Adequate health insurance coverage for medical treatment and hospitalisation is required (Article 39, paragraph 3, Legislative Decree No. 286/1998). Must be demonstrated when applying for a residence permit.

RESIDENCE PERMIT

Must be requested within 8 working days of arrival in Italy at the local Questura (Ufficio stranieri / Immigration Office). The receipt of application serves as proof of legal stay while waiting. Can also be submitted via post offices. EU citizens must register with the local civil records office instead.

TAX CODE (CODICE FISCALE)

The Italian tax code (codice fiscale) can be obtained before arriving in Italy at the Italian consular-diplomatic representation, or in Italy at the local Agenzia delle Entrate (Revenue Agency). Required to open a bank account or

sign contracts.

Important Notes

! The pre-assessment/admission test result does NOT block enrolment for Bachelor's programmes — students may enrol even without passing, but Additional Learning Requirements (OFAs) will be assigned to complete in year 1.

! For Master's programmes, a positive pre-assessment test IS mandatory.

! Fingerprint collection is mandatory for national visas (Type D) from January 11, 2025.

! The University portal is the only official, free pre-enrolment channel — no other portals are recognized.

! The admission letter / pre-acceptance letter does not guarantee a visa — the Italian diplomatic-consular mission has exclusive jurisdiction over visa decisions and also assesses migration risk (D.l. 850/2011, art. 4, para. 2).
